SUMMARY

A highly skilled and results-driven Full Stack .NET Developer with extensive experience in developing and maintaining web applications using the Microsoft .NET Framework (MVC). Proficient in designing and implementing scalable, responsive, and high-performance solutions with a strong background in front-end and back-end technologies.

WORK EXPERIENCE

Junior Software Engineer , PC Technowledge Center Pvt. Ltd **April 2022 - Present**

- As a Full Stack Developer specializing in .NET technologies, I am responsible for building and maintaining both the front-end and back-end of scalable, high-performance web applications. With strong expertise in C#, ASP.NET. I deliver end-to-end solutions that meet both business requirements and user expectations.
-

PROJECTS

CFIO (Cash Flow In/Out System) **(April 2022 - August 2022)**

Role: Development and Maintenance

Project Overview:

The Cash Flow In/Out System tracks and reports a company's cash inflows from operations and external investments, along with cash outflows for business expenses and investments during a specific period.

- Cash Inflow: Money coming into the business.
- Cash Outflow: Money going out, e.g., salaries, rent, and other operational costs.

Technologies Used: ASP.NET MVC, C#, JavaScript, jQuery, AJAX, Oracle, Bootstrap, HTML.

PWS (Penalty Waiver System) **(August 2022 - June- 2023)**

Team Size: 7 | Role: Application Developer

Project Overview:

Developed a web-based Penalty Waiver System for the Purchase Department to manage penalty requests. The system allows users to create and track penalty requests for purchases from vendors, enabling decisions on whether to waive or deduct penalty amounts.

Responsibilities:

- Created master data for currency, job, status, and penalty clauses.
- Developed reports for penalty waiver and deduction tracking.

Technologies: ASP.NET MVC, C#, JavaScript, jQuery, AJAX, Oracle.

e-RMS (Examination and Result Management System) (June- 2023 - Present)

Team Size: 5 | Role: Maintainer and Application Developer

Project Overview:

e-RMS is a web-based, end-to-end system for managing university examinations and results. It streamlines the entire process, from student enrollment to result publication, enhancing efficiency and the student experience. Key features include iTest, iLearn, iPay, and e-Gazette, with cloud integration for scalability.

Technologies: VB.NET, SQL Server 2014/2016/2017, SAP Crystal Reports.

SKILLS

- HTML,CSS,JAVASCRIPT,JQUERY,BOOTSTRAP,C#,VB.NET,MVC,RESTful API
- MS SQLSERVER,CRYSTAL REPORT,MICROSOFT OFFICE 365

EDUCATION

Master of Science in Mechanical Engineering

Sep 2019 - Oct 2020

University of Engineering and Technology

- Specialization in Advanced Manufacturing.
- Thesis on "Innovations in Sustainable Engineering Practices".

Bachelor of Science in Civil Engineering

Aug 2015 - Aug 2019

City College of Engineering

- Relevant coursework in Structural Design and Project Management.

ADDITIONAL INFORMATION

- **Technical Skills:** Project Management, Structural Analysis, Robotics and Automation, CAD
- **Languages:** English, Malay, German
- **Certifications:** Professional Engineer (PE) License, Project Management Professional (PMP)
- **Awards/Activities:** Received the "Engineering Excellence" Award for outstanding contributions to project innovation, Borcelle Technologies
